Persian Limes

2024

Our Persian Limes

Our juiciest and high-quality limes are grown and harvest in the largest lime producing and exporting country, Mexico.

Our fields are located in Veracruz, Colima and Jalisco and our packing houses in Baja California, Texas and Veracruz.

Our Persian Limes

Persian limes are an oval-shaped fruit usually about 3 to 6 centimeters (1 – 2.4 inch.) in diameter, with a vivid green rind which turns yellow when ripe and often with slightly nipped ends.

Our Limes Sizes

| PRESENTATION | | EQUATORIAL DIAMETER IN MM |
